Selling Ford Cars

Mr Otto Hoffman, recently
appointed superintendent of
sales for Ford cars in this
district by Mr Johnny Miller
of the Stony Plain Garage,
in an interview with a Sun
representative yesterday, ex-
pressed great optimism in con-
nection with the sale of cars
the coming season. This well-
known young business man is
planning an extensive cam-
paign through this district for
Henry Ford's well-known
product, and as Mr Hoffman
is well experienced in the
sale of motor cars, having
handled several popular
makes, and is filled with
youthful enthusiasm, it is
safe to predict a record-
breaking year in the sale of
Fords hereabouts—a carload
a week will be the minimum
if Otto's prediction comes
true.

The lively dialog, were given
hearty applause by the throng
in the auditorium, showing
every evidence of its thoro
appreciation; and old theatre-
goers who witnessed the pre-
sentation were unanimous in
the opinion that the accom-
plishments bestowed were well
deserved. A goodly sum was
netted at the door, and the
next entertainment by this
charming young aggregation
of amateurs will be looked
forward to with happy ex-
pectation.

LOCAL NEWS.

Mr Walter Sampson has
returned from a month's visit
to Vancouver and other coast-
al cities.

Mrs J Smith was visiting
with friends in Edmonton
Friday evening.

Mr Chester Kimberley, now
with the Northern Hardware
Edmonton, spent the holidays
with his parents at Holborn.

Wm Comissionow was a Le-
duc visitor over the week-
end.

Miss Elsie Heichen of Ed-
monton is spending the Easter
holidays with her parents
north of town.

The Misses Sara and Annie
McKinley, Camrose, are spend-
ing Easter holidays with their
parents at Comet.

Dr Hanna, a former prac-
titioner in Stony Plain, was
in town last week, renewing
old friendships.

Messrs Baril and Joe Rad-
cliff were down from Peers on
Saturday last.

A message from Stony's
budding legal genius, recently
departed from our midst, says
he is not now suffering from
the cold.

Mr Carl Fischer, Stony's
popular shoe doctor, has pur-
chased the premises, at the
corner of Main and Second
streets, and has begun the
erection of an up-to-date
structure for his enlarging
business. Umbach Brothers
have the contract for the
building.

Mine Host Miller is having
the interior of his Royal
hotel decorated in a very ar-
tistic manner. The work is
being done by Contractor M
S Moyer.

Barth's Orchestra supplied
the music to a large crowd of
dancers Monday night at the
local hall.

Mr Lacey of Edmonton
was in Stony Monday, with
the idea of starting a sausage
foundry and pork shop.

Hy Sinner and family moved
on Saturday to their new
home on Meridian Road.

Thursday last was a record
day for hogs, 3 carloads being
shipped from Stony by local
buyers. The price paid was
over 12c.

The teachers from town and
district are in attendance this
week at the convention in
Edmonton of the Alberta
Teachers' Alliance. The local
school will re open on April
12th. Preparations have been
made by the Board for the
usual Spring influx of new
young pupils.

A full attendance is request-
ed at the regular monthly
meeting of the Ladies Aid of
Stony's United Church, to be
held at the home of Mrs J F
Clarke, on Railroad ave, on
the evening of Tuesday, the
13th inst. The election of
officers for the ensuing year
will take place.

A Matter of National Concern

Canada unquestionably derives many advantages from its close proximity to the United States with its large population, marvellous industries, and great wealth. Many of these advantages are so self-evident that it would be a waste of time to even enumerate them. But, on the other hand, it is equally true that Canada suffers as a result of the very close and intimate relations which exist between the Dominion and its big neighbor, to the south. These advantages and disadvantages are very largely confined to the realm of economics.

The subject is so large that volumes could be written on it, pro and con. Among the many phases or angles of the complex questions involved in this very large problem, there is one which is now the matter of considerable discussion in Canada, because while it is economic in its origin, it contains within itself possibilities affecting the whole social, industrial and political life of this country.

In a sparsely settled, largely undeveloped country like Canada, with people spread thinly over half a continent, and with some sections having little in common, except sentimentally, with other sections, there is naturally lacking that community of interest, and resultant national spirit and consciousness, which animates smaller and more thickly populated countries. There is difficulty in the far eastern and far western Provinces knowing and understanding each other, while these far-flung sections are not even in very close touch and sympathy with the central Provinces, which latter are more or less self-satisfied and self-contained and lack understanding of both the east and west.

Halifax and St. John are closer to Boston and New York than they are to Montreal or Toronto; Montreal and Toronto are closer to New York, Philadelphia and Chicago than they are to Winnipeg; Winnipeg is closer to Chicago and Minneapolis than to Vancouver or Victoria; Vancouver is closer to Seattle, Portland and San Francisco than to Canadian centers. Such is the geographical position which nothing can overcome.

One of the most effective means whereby Canadians could be made to know and understand each other better, and brought closer together, is through the medium of national publications, weekly and monthly magazines and periodicals. Valiant efforts have been put forth by public-spirited men and women to provide such media, but with indifferent success, considering there are nine million people in Canada. The reason for failure is not far to seek.

With a population twelve times that of Canada, United States publishers can develop enormous large circulations for their magazines. As a result they can command fabulous prices for advertising from the large and wealthy national manufacturers. With enormous revenues under their control, these publishers can command the services of the world's best writers, artists and illustrators. The result is they can turn out the most attractive magazines, and of a class and at a price which Canadian publishers in their more limited field cannot begin to approach. And, as Canadians desire the very best obtainable in magazines, as in everything else, these United States publications have larger circulations in Canada than our own Canadian publications.

What will be the ultimate effect of this flooding of Canadian homes with United States publications? This is a question causing much concern not only to many Canadians but to thoughtful students of affairs throughout the Empire and in other countries. Canadians are being constantly supplied with the narrow United States viewpoint on all international questions, which these magazines present as seen through Uncle Sam's spectacles and as they affect the big republic. Canada is a member and loyal supporter of the League of Nations, yet our people are supplied daily, weekly, monthly, with open and veiled criticism and denunciations of the League. The United States' viewpoint is urged as the only right one, and all others wrong. We are fed upon the open disregard for law which prevails throughout the United States; we have bashed up to us the practical breakdown of the marriage tie and decent domestic relations which characterizes the social life of the United States to day; we are inundated with stories of the coming bankruptcy of Great Britain and the breaking-up of the British Empire; and so on and ad nauseam.

What will be the effect on the social life and political institutions of Canada if this keeps up for another generation or two? Is there any remedy that can be applied?

Canadian publishers believe that at least a partial remedy is possible, but that it must be applied in an economic way; that is, the remedy is not to be found in the arbitrary exclusion of United States magazines, but in providing a means whereby Canadian publishers will be given a reasonable chance to compete successfully with them through the production of Canadian periodicals more or less on a par from the standpoint of literary and artistic production with those from across the line.

As the subject is one which concerns all Canadians, it is proposed to examine further into the subject in a subsequent article.

By a high vacuum process, invented by a Swedish engineer, fresh cut lumber is now "seasoned" in a day or less, sufficiently for the carpenter's bench.

Children Cry for

Dominion Revenue Increasing

Figures Show Considerable Gain Over Preceding Year

Ordinary revenue of the Dominion increased by nearly twenty-nine millions during the eleven months ended February 28 last, as compared with the previous eleven-month period. The monthly statement issued by the department of finance shows total ordinary revenue for the eleven months of \$337,988,449 as compared with \$308,984,207 for the previous corresponding period. Ordinary expenditure is about the same as a year ago. On February 28 last it totaled \$276,629,417.

What's Wrong With Canada

Here Are Some Facts For the Croakers To Study

Canada with her 9,000,000 people, has as much foreign trade as the United States had when she had 75,000,000 people, according to recent statistics. In addition, the Dominion is mining as much as the United States did with 38,000,000 people, and manufacturing as much as the United States did with 50,000,000 people. The Canadian per capita export trade to-day amounts to \$134, while in the United States it is only \$37.

NEW BLOOD NEEDED IN THE SPRING TIME

Try Dr. Williams' Pink Pills As a Blood Improving, Health-Restoring Tonic

Every man, woman and child needs new, rich, red blood at this time of the year. That is a scientific fact. All doctors know it. The blood grows thin and pale in the winter; there is not enough of it, and spring shows the effect. Take notice and see how many people are pale and sallow at this time of the year. They complain of being easily tired, their appetite is poor, and they are often depressed and low-spirited. That is Mother Nature urging them to improve their blood supply; but often their digestion is weakened so that they cannot turn food into blood with-out help. Here is where modern medicine comes in, and the reason. Dr. Williams' Pink Pills have a direct action on the blood and enable you to get full use of the blood-making elements in your meals. You soon feel their effect—your appetite improves, your nerves are stronger, color returns to the cheeks and lips, you have more vim and energy and can work with less fatigue.

The value of Dr. Williams' Pink Pills to all who are in what is known as a run-down condition of health is proved by the experience of Mrs. Alex. McKenzie, Schumacher, Ont., who says:—"I was in a completely run-down condition, nervousness, sleeplessness, and loss of vitality were all taking their toll. I felt miserable all the time and began to feel that my case was hopeless, as I had taken a number of remedies with little or no relief. I then read of Dr. Williams' Pink Pills, and finally decided to try them. I got a half dozen boxes, and by the time I had taken about half of them, there was no doubt I had at last found the medicine I needed to get me back on my feet. I continued the use of the pills, gaining strength day by day, until I was soon enjoying the same health and happiness. I strongly recommend Dr. Williams' Pink Pills to every man, woman or child who is in a run-down condition, feeling sure that the pills will soon restore them to health and strength."

Whether you are seriously ill or merely feel easily tired and out-of-sorts, you should try Dr. Williams' Pink Pills this spring. They are sold by medicine dealers everywhere, or will be sent by mail at 50 cents a box, by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Through Service For Steamship Passengers

Canadian Pacific Railway inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

A grocery clerk may not be as heavy as a dry goods clerk, but he always weighs more.

Minnard's Liniment for colds

W. N. U. 1228

Get back that lost weight!

When you start to waste away to a shadow, when the color leaves your cheeks and your poor, tired legs will hardly hold up your weakened body it's time you started taking a fine tonic and builder like Tanlac.

Tanlac will build you up and make you feel that life's worth living. Made from roots, herbs and bark gathered from the four corners of the earth and compounded under the exclusive Tanlac formula, Tanlac is just what the poor, starved body needs.

First of all it cleanses the blood stream and puts the digestive organs in order. You find, after a few days' treatment, that you want to eat. Pretty soon the welcome color steals back into your cheeks and the scales tell you that you're gaining weight. From then on it's only a short time until you're feeling fit as a fiddle.

Millions of men and women have taken Tanlac with great results. More than one hundred thousand people have written glowing tributes to this wonderful tonic.

When you know it has worked wonders for so many folks it's folly to start the old advantage of Tanlac's help yourself. Don't

Gained Health, Strength, Vigor, Weight

"Chronic indigestion made me unable for two years. I lost weight and strength and could do no housework. Tanlac put me on my feet. Gained 20 lbs. and now enjoy vigorous health again."

Mrs. Louis Calouette
516 Marie Anne St.
Montreal

put it off another day. Get a bottle at your druggist's now and start the good work right away. Take Tanlac's Vegetable Pills for constipation.

Decrease in Railway Accidents

Number of Fatalities Through Accidents is Also Less

A considerable decrease in the number of railway accidents and in the number of fatalities is shown in the annual of the Dominion railway board for the calendar year, 1925. During these 12 months there were 2,713 accidents on Canadian railways, in which 271 persons were killed and 2,552 persons injured, as compared with 2,834 accidents in the previous year when 218 persons were killed and 3,254 persons injured. Classifying these casualties, there were six killed in 1925 as against 17 in 1924; 76 employees killed, as against 107; and 120 others killed as against 194. Crossings protected by some means accounted for 76 killed in 1925 and unprotected crossings took a toll of 294 killed and 1,161 injured.

During 1925 there were 839 fires originating within 300 feet of the railway lines, and these fires burned over 57,430 acres, destroying forest property valued at \$219,093 and other property valued at \$77,629. There were 36 public settlements of the board last year.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot daunt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is an untiring, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

If justice were really blind she would not be able to wink at her favorites.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Medieval monks who transcribed manuscript were exempt from labor in the field.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturers of Monoclonal Acid, A. S. & Co. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Estimated Per Capita Wealth Of the Three Prairie Provinces Higher Than In Other Parts

While the national wealth of Canada was estimated in 1921 at \$2,255 per capita, the estimated per capita wealth of the prairie provinces is placed at \$2,396, an increase above the average of 1914, according to a recent report of the Dominion bureau of statistics which collects the necessary data to treat the three prairie provinces of Canada as a separate unit. Of the total per capita prairie wealth, agricultural wealth made up \$1,916, of which \$1,511 represents the farm values of land, buildings, implements, machinery and livestock.

This wealth was distributed among the 1,566,992 inhabitants of the prairie, the bureau estimating that by 1925 this figure had risen to 1,605,400. The population was spread over a total area of 446,668,798 acres, of which 215,281,000 is arable land and 79,951,504 was under cultivation in 1921.

With these figures as a basis, the bureau states that the total value of production, or income of the prairie was \$938,000,000 in 1923, which, after making deductions for depreciation and maintenance of the agents of production, resulted in a per capita income for the prairie inhabitants of \$432.

A survey of production in 1923 shows the provinces to be fundamentally agricultural. More than 91 per cent. of Saskatchewan values were obtained from farming, while in Manitoba and Alberta the proportions were 85 per cent. and 74 per cent. respectively. Mineral production held second place in Alberta, coal mining, of course, being chiefly responsible for this. In Manitoba and Saskatchewan manufacturing was second in importance.

Canada's Dairy Production

Nearly All the Provinces Show An Increase in Output

There was an increase in production last year of 1,768,846 lbs. of butter and 13,263,364 lbs. of cheese in Canada compared with that of the previous year. All the provinces excepting Ontario, which was stationary, and Alberta, which shows a decrease of 1.5 per cent., show an increase in butter. Saskatchewan taking the lead with 17.7 per cent. of an increase. In cheese, Prince Edward Island shows a decrease of 2.4 per cent. and Alberta 1.9 per cent. All the other provinces show an increase. Quebec of 33.4 per cent., Manitoba of 23.3 per cent., Saskatchewan of 70.2 per cent., New Brunswick of 18.1 per cent., Ontario of 4.8 per cent., British Columbia of 2.3 per cent., and Nova Scotia of 1 per cent. The figures are taken from a recent issue of the News Letter published by the Dominion dairy and cold storage branch. The commission requests all cheese factories and creameries to send in statements annually of their production to him at Ottawa for compilation and publication in the News Letter.

Pasteurization in Dairying

Efficient Pasteurization Assure a Safe Supply of Milk

Inefficient methods of pasteurization have a bad effect on the dairy industry by giving the public a false sense of security, according to a new bulletin on pasteurization of milk, cream and dairy by-products, issued by the Dominion department of agriculture. On the other hand, efficient pasteurization assures the safe supply of milk and other dairy products, delays the souring of milk and improves the flavor and keeping quality of butter. The bulletin, which may be obtained from the Publications Branch, Department of Agriculture, Ottawa, describes in detail the best methods of pasteurization for use in cheese factories and creameries.

Youth May Be Restored By X-ray
The aged for youth may be attained through the use of X-ray, according to the promise of Prof. Antonio Pais, radiologist, worker with the Rochester Foundation in Italy. Old men and old women, says Professor Pais, may be treated by the process he outlines more easily than those of middle age.

W. N. U. 1623

Vegetable Growing On the Prairies

Many Reasons Why the Farmer Should Cultivate a Garden

The soil and climate of Western Canada are particularly well suited to many kinds of vegetables, and there is no reason for a lack of table vegetables in any farm home in that part of the country. In a new bulletin of the Dominion department of agriculture, entitled "The Prairie Farmer's Vegetable Garden," the authors point out that the labor involved in keeping a good farm garden is very little, does not demand special equipment, and can mostly be done in spare time. Such a garden furnishes an attractive and healthy variety in the diet and saves money otherwise spent for a limited, irregular and inferior supply of vegetables. Besides, many prairie farms are so situated as to command a ready and profitable sale for surplus garden crops. The bulletin, which may be obtained free from the Publications Branch, Department of Agriculture, Ottawa, gives detailed instructions for the guidance of the prairie farmer who desires to start a garden.

British Farm Boys

Empire Settlement Board in England Would Send Boys to Canada

More British farm boys to study Canadian farming at the Alberta agricultural schools will be obtained this year if the government decides to continue the training scheme that has been in operation for the past two years. Hon. George Howley, minister of agriculture, has received an inquiry from the empire settlement board in England as to whether or not the present arrangement, by which immigrant boys are brought over for practical training in farm methods, will be renewed for another season. A further supply of British boys can be secured, it is estimated, if the plan can be continued here.

New Variety of Field Peas

Experimental Farm at Ottawa Introduces the Mackay Field Pea

The introduction of a new and valuable variety of field peas, which "may mean to the grower of field peas what Marquis has meant to the growers of wheat in the west," is announced by the Dominion experimental farm system. On the average for the past five years at the central experimental farm at Ottawa, this new variety, which is called Mackay, has yielded over ten bushels more per acre than the well-known variety called Arthur.

B.C. Wool Production

Wool production in British Columbia during 1925 recorded a remarkable increase over the output of the previous year. In 1924 only 87,000 pounds were shipped by the B.C. Wool Growers' Association, while for 1925 it is estimated that the figures reach 170,000 pounds.

A Paris automobile factory employs women as testers.

Most Encouraging Prospects For Sheep Raising and Wool Growing Are Seen In Western Canada

Feeding Chickens

Proper Methods For Care and Feeding Are Described

When a baby chick leaves its shell it needs warmth and rest, but no food until it shows positive signs of hunger, which will be two or three days after hatching. Proper methods of feeding are described in detail in a new bulletin on poultry feeds and feeding issued by the experimental farms and distributed by the Publications Branch, Department of Agriculture, Ottawa. According to the bulletin, when the chicks are removed to their brooding quarters there should be some coarse sand or grit and fine oyster shell scattered where they can have free access to it. For the first few days, after feeding is begun, they should receive dry mash first or six times a day, and then they should be given small quantities of chick scratch feed. A good rotation for this period consists of one part each of shorts, middlings, cornmeal and oat flour, half a part of fine meal meal and a little fine table salt, about 1/4 to 1/2 of one per cent. If there is no bone in the meal meal five per cent. bone meal is substituted for an equal amount of meal.

Grain or cracker shell is provided when mash is fed. Fontaines of milk and water, which should be renewed often, are kept before the flock at all times. Cloves leaves and sprouted oats or some other green feed is necessary. After the first week or ten days, moist mash may be given, using infertile eggs, shells and all, or raw liver run through a meat chopper, or milk and cod liver oil—all dried off with the dry mash mixture, the egg mash being gradually replaced with mash moistened with milk. If rapid maturity is desired, the moist mash may be kept up after the chicks are put on the range, otherwise they are discontinued.

State, sour mash will put chicks off their feed, therefore, the great mash fed should be such that it will be cleaned up in a few minutes. If too much has been fed, the surplus should be removed. Once chicks go on the range they can be reared with very little labor, dependence being placed largely on hopper feeding. A clever field beside a corn field or an orchard makes an ideal range.

Stale, sour mash will put chicks off their feed, therefore, the great mash fed should be such that it will be cleaned up in a few minutes. If too much has been fed, the surplus should be removed. Once chicks go on the range they can be reared with very little labor, dependence being placed largely on hopper feeding. A clever field beside a corn field or an orchard makes an ideal range.

Say "Hello" Across Continent

Although it cost the provincial government of Alberta an investment of only \$1,500 to establish connection with the universal telephone service giving continent-wide phone connection, the Alberta Government telephone department has had a revenue of \$400 a month from the service almost since its inception. The outgoing calls average 250 a month.

Jack—"That new evening gown of yours looks just like a soldier's uniform." Jane—"Yes, and you'd be surprised at all the insects I've caught with it."

Those having best knowledge of the world situation in this regard, both in Canada and overseas, it is because their advice to the Dominion is devoted greater energy to sheep raising and the production of wool. Walter Andrews, past president of the British Wool Federation, some time ago addressed the adopted by Canada of the slogan "Grow More Wool," and again at the opening of the year 1926 drew the Dominion's attention to the remunerative character of wool production and urged the Dominion's closer attention to this form of enterprise. "The world never has had enough wool," he states, "and is never likely to have an excess."

Canadian authorities on the subject, such as the president of the Canadian Wool Manufacturers' Association, and the president of the Canadian Co-operative Wool Growers' Association, would appear to be unanimous in the opinion that Canada should become a great sheep-raising country possessing all the possibilities for such a status. It has been very significant that for the past few years Canada has carried off most of the awards for sheep at the Chicago International and made a virtual sweep of winnings at the 1925 showing. Speaking at the annual meeting of the Canadian Sheep Breeders' Association, the Dominion livestock commissioner stated that the pure-bred sheep raised in Canada would stand comparison with sheep bred in any other country, and it was not now thought necessary to import pure-bred sheep from other countries for the improvement of the breed as had been done in past years.

Col. Robert McEwen, of Ontario, who has been mainly responsible for Canada's historical success in sheep-raising, gives as his belief of the reason of his triumphs: "I haven't a doubt but that our Canadian climate, with its earlier frosts, has much to do with it, particularly when it comes to fitting market stuff. Our lambs are very hardy and with more zest and appetite their flesh more quickly and more evenly." Canadian opportunity today in sheep raising may briefly be summed up in the statement of the federal deputy minister of agriculture recommending the "best little money-maker industry in Canada is the sheep industry."

The Canadian wool clip of 1925 is estimated by the Dominion Government at 15,562,045 lbs., of the value of \$1,199,000, or 37 cents per lb., as compared with 15,117,719 lbs. of the value of \$2,771,000, or 25 cents per lb., in 1924. A total of 2,776,123 lbs. of wool was handled by the Canadian Co-operative Wool Growers' Association in 1925 as against 2,963,149 lbs. in 1924. Alberta supplied 1,549,286 lbs.; Saskatchewan, 171,798 lbs.; British Columbia, 141,404 lbs.; Ontario, 758,277 lbs.; Quebec, 92,192 lbs.; Nova Scotia, 55,018 lbs.; Prince Edward Island, 49,037 lbs.; and New Brunswick, 22,419 lbs. The province of Saskatchewan raised more wool than in the previous year and increased the number of individual wool shippers.

The province of Alberta accounted for the largest increase, and whilst all the associations in this province showed a very healthy increase in the amount of wool forwarded, it is held that the volume of the increment is accountable to Southern Alberta, where in 1925 the majority of the large clips were forwarded to the overseas markets. Whereas in the previous year some of the large clips were sold elsewhere. The total quantity of wool handled in 1925 is the largest since 1921 and approximately one million pounds over 1924, and the general increase recorded in each province is accepted as very encouraging.

An Expensive Post

It seems absurd that the American ambassador to Great Britain, while drawing a salary of \$15,000 should have to spend from \$50,000 to \$60,000 out of his pocket. It is a Canadian ambassador to be appointed to the United States. Will be have to pay in this way?—Kington Standard.

Miss Sarah Beall, a mathematician, and the only woman now connected with the United States Coast and Geodetic Survey, has recently completed a book which is a complete history of the astronomical work of the survey since 1844.

Flour Exports

Value of Shipments Show An Increase Over Two Previous Years

The value of flour shipments for the twelve months ending with January still show an increase as compared with either of the two previous years, although the volume shipped was smaller than for either of these years. The total was 10,160,806 barrels, valued at \$72,902,819, against 11,299,574 barrels worth \$65,459,504. Figures for exports to Great Britain show that that country is importing approximately as much flour as ever, although there is a slight falling off in the case of shipments to the continent of Europe.

Wealth of Osage Indians

The Osage Indian nation last year received more than \$29,000,000 in oil and gas royalties and this sum was equally divided among 2,239 head rights or shareholders, each receiving more than \$12,000 in cash or certificates of investment. The shares this year are expected to reach \$15,000 each.

By burning seaweed and extracting the ash, iodine is obtained in the British Isles.

Lord Allenby meets former Officers

Members of the Jaffa Gate who met Lord Allenby in Victoria having served under him during the Great War. The majority of these men came to British Columbia since the Armistice and have settled in the Okanagan Valley, Vancouver, Victoria and other points on the Mainland and Vancouver Island.

These officers include Capt. J. H. Constantine, of Vancouver, who is responsible for the organization of the Jaffa Gate; Brig-Gen. Noel Money, Quillem Beach; Col. James Lightbody, Capt. A. S. G. Muirgrave, Capt. Dick Ley, Capt. Wilfrid and Capt. Bismarck, all of Victoria; Major Eric

Treherne, Lieut. John Thompson, Major H. T. Curtis and Major George Walkem, M.P.P., all of Vancouver; Capt. T. B. Matheson, Kelowna; Capt. R. V. Becker, Enderby, B.C.; Capt. L. H. G. Cole, Duncan; Capt. J. N. Hodgins, Quillem Beach; Capt. C. J. Cooke and Lieut. F. A. Hall.

WOULD LOWER CUSTOMS TARIFF ON AUTOMOBILES

Ottawa.—G. G. Coote, Progressive, MacLeod, Alberta, moved in the House of Commons his resolution that there should be a substantial reduction in the customs tariff on automobiles and motor trucks.

Mr. Coote submitted that owing to the lack of transportation in Canada, especially in the west, Canadian farmers should be able to buy more motor trucks and automobiles. Canada, he said, really ought to have more auto vehicles per head of population than the United States, whereas the ratio was lower in Canada. There could be only one reason why it was lower, he said. That was the high price of autos.

In the west, the average distance which a farmer has to haul his products was ten miles. Those who had much farther than this to take their products before they could be shipped to market, were surely entitled to greater consideration. Mr. Coote estimated that incidents of the customs tariff alone added \$305 to the price of every car in Canada. Besides this, there was the sales tax. Canadians also paid, on imported cars, United States excise duty of 5 per cent. All of this taxation, Mr. Coote said, imposed an entirely unfair burden of cost on the people who purchased cars. So far as the farmer was concerned, he said, a car was becoming a necessity and should not be taxed as if it were a luxury.

Almost everywhere else went there seemed to be a demand for reduction in the tariff on automobiles, Mr. Coote said.

Mr. Coote compared the prices of two makes of motor cars to show that increase in the Canadian price was from 38 to 42 per cent. over the American price.

The American manufacturer was taking advantage of the tariff. If you bought a car made in Canada the tariff went to the American manufacturer, Mr. Coote said. "This tariff imposed on the Canadian people for the American stockholder," he said.

Communists Reverse Attitude Toward Church

Anti-Religious Plays By Young Members A Forbidden Moscow.—Antireligious plays and evening parties by members of the Young Communist organization are forbidden under orders just issued by the central committee of that body.

The committee says that such affairs are directed against the church and are calculated to irritate the feelings of church people, especially national minorities, and engender hatred of the members of the Young Communist party by the peasantry.

The reversal of the attitude of the Communists toward the church is considered significant.

Keep Liquor From Youths Tokyo.—A nation-wide movement to prohibit the drinking of alcohol liquor by men under twenty-five years of age has been launched by eleven different bodies in Japan, including the Japan Temperance Union and the Women's Reform Society. Leaders of the movement hope the Diet will enact a bill raising the drinking age, which now is twenty years.

Contable Is Acquitted Calgary.—Constable Albert McKean of the Drumheller town police force, was acquitted of a charge of manslaughter by a jury before Mr. Justice Boyle in the criminal section of the Supreme Court. The jury deliberated but three minutes.

Athabasca Commission Ottawa.—Hon. Mr. Justice Beak of the appeal division of the Supreme Court of Alberta has been appointed royal commissioner to investigate charges of alleged irregularities in the constituency of Athabasca, Alta., during the recent general election.

B.C. Markets New Potatoes New Westminster, B.C.—New potatoes, grown in the open, were marketed here by a Fraser Valley farmer and commanded a price of forty cents a pound.

W. N. U. 1623

Saskatchewan Egg Pool

Commences Operations Under Most Favorable Auspices

Regina.—With six candling stations opened at Brandon, Weyburn, Regina, Moose Jaw, Saskatoon and Humboldt and 175 receiving stations in various parts of the province, the Saskatchewan Egg and Poultry Pool has commenced operations.

"Delivery of eggs at local receiving points has been heavy," said Ralph Brightly, general manager. Over 2,000 egg crates of the heavy export, lock-top variety, with best grade Billers and flaps and excelsior padding top and bottom, have been sent out to the receiving stations. About 6,000 of these will be used for transporting the eggs between local receiving depots and the candling stations.

Explaining the pool method of operation, Mr. Brightly said the producers will send their eggs in lots of three dozen or multiples of three dozen to the local receiving stations. The eggs will then be shipped in bulk to the candling stations and sold direct to buyers after they have been candled and graded. Remittance will be made from head office to producers about twice a month.

It is expected that about 100 receiving stations will be established shortly. At present the egg pool has over 12,500 contracts signed and the sign-up campaign is still proceeding.

Radio In Lighthouses Would Aid Police

Member For Vancouver South Makes Suggestion In House of Commons

Ottawa.—Installation of radio receiving and broadcasting sets in Canadian lighthouses to assist in the arrest of criminals is suggested by L. J. Ladner, Conservative, Vancouver South, in a series of questions placed on the order paper of the house.

"In the intention of the department of marine and fisheries to equip Canadian lighthouses with radio receiving sets?" Mr. Ladner asked.

"In the government aware that in the case of the big bank robbery at Nanaimo that the bandits were hiding in their launch close to the Point Lighthouse? That the lighthouse keeper saw the said bandits' launch and also the police boat passing nearby, and not knowing of the said robbery failed to notify the police boat of the hiding place, and the bandits escaped, thereby involving thousands of dollars of public money in further search throughout Canada and the United States?"

"In the intention of the department of marine and fisheries to install certain of its more exposed lighthouses radio broadcasting equipment of sufficient range to communicate in case of emergency with large centres of population?"

Trapper Killed By Grizzly

Found By Partner Within Mile Of Their Camp

Prince George, B.C.—Tom Meany, a trapper on the north fork of the McGregor River, 75 miles northwest of here, was killed by a grizzly bear within a mile of his camp, according to information brought here by Jack Yrseau, the dead man's partner.

Yrseau told the provincial police that Meany left camp to go over some traps and cut up the carcass of a moose previously killed. When he did not return Yrseau started to look for him. Within a half hour the body of Meany was found a short distance from the moose carcass, the face and top of the head being torn off. All around were tracks of a grizzly bear. Meany had been dead some time, but his hand still had a firm grip upon his axe. It is surmised he surprised the grizzly while feeding on the moose carcass and was attacked by the animal.

B.C. Industrial Accidents.

Vancouver, B.C.—During 1921 a total of 37,563 accidents occurred in British Columbia's industrial establishments, with 213 deaths, statistics made public by the Workmen's Compensation Board disclosed. Annual industrial casualties of the province increased from 130,000,000 in 1922 to 116,000,000 in 1925.

Arab Women Fight

Jerusalem.—Arab women are reported to have appeared in the ranks of insurgent Syrians, fighting against the French regime.

WILL INTRODUCE PLAN TO SETTLE U. S. WAR CLAIMS

Washington.—The treasury plan to pay immediately the \$180,000,000 in claims of United States citizens against Germany on its own account, trusting to a refunding by the collection of German reparations, was put up to Congress for approval in a bill introduced by Representative Mills, Republican, New York.

The programme provides for a full settlement of all war claims between Germany and the United States, including the return of property of German nationals held by the Allen Property Custodian and the payment of German owners of ships, radio stations and patents taken and used by the United States government.

It authorizes the government to borrow the money necessary to make such payments and provides that all receipts received from Germany on account of reparations and the cost of maintaining the United States army on the Rhine shall be applied to a liquidation of this debt. The \$30,000,000 assuming interest from the money on deposit with the Allen Property Custodian prior to 1921 also will be applied.

Dog Team Failed In Mountain Climb

Veteran Musher Battered Many Hours With Drifting Snow

Pinkham Notch, N.H.—The first attempt ever made to climb Mount Washington with a dog team failed because of a 70-mile gale which threatened to sweep driver and dogs from the mountainside.

Arthur Walden, of Wonalancet, veteran musher, reached the Halfway House on the mountainside after a battle of many hours with drifting snow and heavy winds. At that point, it was decided to abandon the attempt because of the gale. It was said to be impossible that the climb would be renewed this season as the weather forecast promised continued wind for several days.

Opens Navigating Season

Quebec.—Making a passage for themselves through the ice-covered waters of the Louise Basin in the local harbor, two steamers, the Gaspesia and the Quide, recently passed out into the St. Lawrence to the accompaniment of numerous salutes which signified that the 1926 navigation season had begun.

Unemployed Defied Police

London.—Mottled police charged a crowd of several thousand unemployed demonstrators near Hyde Park, scattering them in all directions. The police noted, when the demonstrators were attempting to form up in procession in defiance of police orders.

Miss Chu Chin Chow and the Chow Puppy

Little Miss Chu Chin Chow and the Chow puppy are all worn out from watching the wonderful white people on the Canadian Pacific liner Empress of Scotland, which in her tour of the world stopped for a short time at Hong Kong, where this Little Chinese Rapper made her acquaintance. She is looking wisely after the big ship as though she would like to see a little more of the great world to which she has been a visitor only a few years. Dobby Chow is not quite so yearning a pup. He guesses any part of the world is good enough for him as long as Miss Chow is within reach.

Canadian Engineers Praised By Allenby

Pays Tribute To Work On Bridge Construction In Palestine

Montreal, Que.—Glorious tribute to the fighting qualities of the Canadian Bridging Battalion, the only unit from the Dominion under his command in Palestine, was paid by Field Marshal Lord Allenby, in an address here.

Lord Allenby described this practically unknown chapter of the war in the terse language of the soldier. "A horrible bit of work," as he termed it, was the time when this small body of Canadians, under Col. Linton, undertook to and succeeded in repairing the bridges which had been destroyed by the Turks in their retreat in September, 1918.

The Canadians, "all of them gallant fellows," built the bridges in the face of great difficulties, ninety per cent of them were down with malaria, and the ticklish business of putting up the bridges was across a torridist stream with a fall of 2,500 feet over a distance of only a few miles.

"That," said the Conqueror of Jerusalem and Damascus, "is what the Canadians did in Palestine."

Movement To Ban Undesirable Pictures

Advisory Commission of League Wants Children Protected

Geneva.—A movement to protect children throughout the world from undesirable moving pictures was initiated by the League of Nations advisory commission on child welfare, which adopted a resolution for the creation of central censorship boards in each country, composed of educationalists and parents.

The resolution stipulates that these boards should prohibit the presentation of films demoralizing to the mentality and morality of children.

Livestock Show At Calgary

The Largest Individual Winner Was a Local Exhibitor

Calgary.—W. P. Fleming, Calgary, was the largest individual winner at the Calgary spring livestock show, when his entries were awarded first and second prizes for the best 15 finished steers, first for the five finished steers and first for the best 15 finished steers by a registered Aberdeen-Angus bull. George Tait, Warren, Man., was first with the best five finished steers under 1,100 pounds. Special prize for the best carload of steers purchased at the Calgary stock feeder show was awarded to Paul Gabriel, Erskine, Alta.

Another Conference Planned

Winnipeg.—Invitations to premiers of other Canadian provinces to attend a second inter-provincial conference on succession duties was issued by Premier John Bracken. It was suggested that the meeting be held either in Montreal or Toronto.

CLAIMS OCEAN RATES ON CATTLE ARE EXCESSIVE

Ottawa.—Colonel H. A. Mullins, Conservative, Marquette, moved, in the house that the "Canadian Government Merchant Marine should withdraw at once from the North Atlantic conference and should be operated independently of any conference, association or combine of steamship lines, with the sole object of conferring the greatest possible advantage upon the Canadian producer."

It had been brought out during the parliamentary investigation of ocean freight rates that the Canadian Government Merchant Marine "sat in" at meetings of the North Atlantic conference just as did the other steamship lines, said Colonel Mullins. He did not know whether the government vessels were still operated in conjunction with this combine, and he wished the government would inform the house on this matter. At any rate an excessive rate of \$20 per head for carrying cattle across to England still prevailed, and western cattle shippers were beginning to wonder if they would ever see it reduced. Why, he asked, would it not be possible to rent vessels of the merchant marine for carrying Canadian cattle? There were 24 ships of 3,000 tons each, which would be admirably suited for the cattle trade if properly refitted.

Hon. C. Dunning, Minister of railways and canals, said that Colonel Mullins had not discussed the resolution itself. As a matter of fact, however, the resolution was "one year late." The Canadian Government Merchant Marine withdrew from the conference in February, 1925.

Convict Ship Sails

The Last Convict Ship Afloat In the Twentieth Century

La Rochelle, France.—"La Marinere," the last convict ship afloat in this twentieth century of the civilised world, sailed recently for French Guiana carrying 240 lifers and long-term sentence men. It was the first shipment of convicts for this South American station in more than two years.

"La Marinere" was painted a weird combination of red, yellow, black and white and seemed to have emerged from the middle ages, until one convict, under stress of emotion, waving goodbye to his sweetheart, collapsed and died, bringing back the grim present.

Soldiers' Settlement Act

Lengthy Debate Features Discussion Of Bill To Amend The Act

Ottawa.—A lengthy debate occurred in the House of Commons on a resolution preceding a bill to amend the Soldiers' Settlement Act by providing for the revaluation of soldier settlement lands. The debate was featured by an exchange of personalities between Right Hon. Arthur Meighen, opposition leader, and Hon. Chas. Dunning, minister of railways. The resolution passed and the bill received first reading.

The fiery exchange lasted for about twenty minutes and the episode was warm and exciting.

Dead, Listens Over Radio

Ingersoll, Ont.—For the first time in 40 years, Mrs. James Allen heard organ music distinctly over the radio when a programme was being broadcast from a local station. Circumstances about an interesting coincidence, as the last music that Mrs. Allen heard before becoming deaf was organ music in England, more than 40 years ago. This is the second instance this year where local parties who had not heard a sound of any kind for years have heard music over the radio.

Was Sister Of Pope Pius X.

Rome.—A lifetime of self-denying devotion to religion has ended with the death of Anna Sarto, youngest sister of the Pope Pius X, after two months' illness and a difficult operation. Anna 76, was a spinster. She died almost in poverty in the tiny apartment facing St. Peter's Square in which she had lived for many years with Maria Sarto, now the only surviving sister of Pius X.

Seat Should Be Vacated.

In view of the revelations
that were made at the hearing
of the case arising out of the
Peace River election, Mr.
Kennedy would be well advised
to resign his seat. No one
has suggested that he was in
any way connected with the offi-
cers which were charged and which
led to the conviction. But if they
were committed, as the jury found
they were, they had the effect of
defeating Mr. Collins. This the
presiding judge made clear in his
address.

Under these circumstances Mr.
Kennedy should recognize that the
right thing to do is to vacate the
post for which he was declared
elected and allow another contest
to be held. He may be under no
legal obligation to do so but that
should not be the guiding consid-
eration with him.

If the proper registration of the
will of the electors was prevented
by fraud and another man was de-
prived unfairly of the place which
he now occupies, the course for
Mr. Kennedy to take ought to be
perfectly plain.—Edmonton Jour-
nal.

Cid Records Shattered at Quebec Dog Derby

1—Francisco Dupuis, driving for A. McKay & Co., who won the Derby. 2—Crowd watching start and finish of the dog Derby. 3—Sherry Russick with his new leader Murphy.

Struggling under too handicap of
mixed team and "Channing's" long
less hounds. No records were ex-
pected. It was thought at first that
Russick's pups of fourteen months
would crack under the strain or that
St. Godard, who had undergone a
painful operation several months be-
fore, would weaken. Joseph Dupuis
was considered a likely winner. But
out of the dark, on the third and last
day of the race, came his brother,
Francisco Dupuis, leading the field by
a scant ten seconds.

In winning the gold cup and one
thousand dollars, Francisco Dupuis
established a new world's record,
eclipsing the record of 13:49.45 es-
tablished last year by St. Godard,
by seventeen minutes and thirty-five
seconds. Last year's record was also
beaten by Russick, second in this
year's race, who covered the 125

Out of the nineteen teams that
started the race, all but one finished,
the being Wilfred Poirier, of Annon-
ville, Quebec, who trailed the field
on Thursday and Friday and found
the third day's prospects too tough.
Thousands of people were on hand
as the team driven by Dupuis for A.
McKay and Company, of Quebec,
finished the last lap of the grueling
run, closely followed by Russick. A
large number of enthusiasts were
also present in the evening at a
banquet at the Chateau Frontenac,
when Hon. W. Gerard Power, presi-
dent of the Quebec Harbour Com-
mission, acted as chairman and presen-
ted the prizes. Young Paddy Nolan
was awarded a cup and a cash prize
for being the youngest driver ever
having taken part in a race of such
a nature.

The Improved Ford Touring Car

AN all-steel body on the improved chassis, with a new top designed to harmonize with the reduction in height, gives the Touring Car a grace and smartness heretofore unapproached.

Advances in comfort have kept pace with improvements in design. Placing the fuel tank under the cowl has made it possible to lower the seats, giving greater leg room and added comfort for driver and passengers. Ventilation and driving vision are improved by the new touring windshield, the lower half of which is adjustable.

The side curtains, generally re-designed to conform to body and top changes, add the final detail of touring comfort. When in place, the curtains open with the doors and combine wide vision with lasting durability.

FIRST-CLASS ACCOMMODATION FOR TRAVELERS. EUROPEAN PLAN. RESTAURANT IN CONNECTION.

Stony Plain and District.

Messrs Dias Smith and Hollinghead of Westlock motored down to Stony on Friday, on a visit to Mr Jas Smith.

Miss Rose Rivest from Edmonton spent the week end with her parents near town.

Mrs Werner had recovered sufficiently to return home on Saturday last.

Dr Walton returned this week from a visit to his parents at Busby.

Concordia College boys returned to their studies Tuesday morning.

Meridian Lodge held its regular monthly session Tuesday night, in the local hall.

Mr Dan McKinlay moved his furniture on Monday from his cottage in town to his farm at Namoo.

The electric lights in town were turned off Saturday evening about 7.30, as the electric plant was closed down, owing to a malfunction of the catwhisker on the generator, it is said.

The Spring Live Stock Show in Edmonton this week is attracting quite a number of visitors from this district.

Inga Councilors held their regular monthly meeting in Stony Plain last Saturday afternoon, with Reeve Mord McKinlay in the chair. Discussions concerning allowances given under the Mothers' Allowance Act took up considerable time of the session. Other matters discussed were mostly routine, and the meeting adjourned at an early hour.

Mr Godfrey has rented the Harold Shaw farm at Bright Bank.

Mr J S Wright of the Edmonton Automobile and Good Roads Ass'n is expected in town on Saturday next, in the interests of his association and get members from among the local car owners.

Dodge Brothers' Motor Cars were always good cars—Now they're better.

The Dominion Government will connect up with the Jasper-Yanconver highway at both eastern and western boundaries of Jasper Park as soon as the provincial governments of Alberta and British Columbia are ready to complete their highways to the park.

FOUND—In Stony Plain, a wagon end gate. Owner can have same by proving property and paying for ad.

Extension of Main Street

The long projected opening up of Main street to the Baseline was given another start last week when a crew of brushers and road builders under Councillor Michael started work. The enterprise was undertaken under the auspices of the local branch of the Good Roads Ass'n, aided by a grant from Stony's Council. This will shorten the route by one half mile to those who have reason to come to town from the West, as well as being the means of lessening the sufferings of those youngsters who use the school van in the cold weather. The work will be proceeded with and a passable roadway is expected to be in use in a very short time.

Stony Plain and District.

Mr Paul Werner, Stony's well known impressario, is moving on the 15th to more commodious premises, at the corner of Main and First Sts., owing to the demand of his increasing business for more space. The new premises are now in the hands of a corps of carpenters and decorators, and very extensive alterations are under way, with a view to making this the most up-to-date Bantery west of the Fifth. A hearty invitation to be present at the opening is extended to all by the genial "Dr." Werner, surgeon to old soles.

The dance at Rosenthal Hall on Tuesday evening next should be well attended, as a good orchestra has been engaged for the occasion.

Potatoes are now real property, owing to the high price of spuds in the East. Those at present holding quantities of these are asking for their produce, prices which would have appeared excessively large last fall. Mr Heichen is the fortunate holder of a carload of number ones.

D McGregor, a student at the University of Alberta, is a visitor this week with Mr Ph Fuhr.

A very enthusiastic party of young people, Monday night, serenaded Mr and Mrs John Schoepf, the newly weds at Garden Valley.

H J Shaw, ex-councillor for Inga M D, has accepted the agency for the Massey Harris Implement Co at Holden. Mrs Shaw and children left Saturday for their new home.

The Stock Pool Committee of Holborn U. F. A. are arranging to hold a meeting next Saturday, to complete arrangements.

The Women's Institute will meet at the home of Mrs Jas Malloch, on Wednesday afternoon, April 14th. Members are requested to be prepared with a joke verse or apt saying about "Spring". Please bring two soup and two meat dishes for the cook book.

Mr R P Shaw has received the appointment as Post Master at Brightbank.

Duffield Notes

Duffield U. F. A. is making a shipment of livestock today.

Mr Bill Hellum, of Duffield, who has been in an Edmonton hospital for a short time, is making good progress toward recovery.

A dance will be held in Highvale Schoolhouse Friday, April 9th.

In Duffield, April 2, to the wife of Mr Mike Turlock, a son.

Stony Plain and District.

Mr John H. Miller of the Stony Plain Garage, got in another carload of Ford Cars on Tuesday.

Mr Ainer Anderson has recovered from an attack of sickness.

The pupils of Governor School resumed their studies Tuesday last, with Teacher Moyer in command.

Saturday next is Feeders' Day at the Spring Show in Edmonton, arranged by the University of Alberta. Results of the feeding trials held during the past year will be presented.

A dance will be held tomorrow (Friday) evening, at Tecumseh Schoolhouse Good music.

This Week's Marriages.

In Edmonton, on Monday, April 5th, Miss Elizabeth Armbruster to Mr Johnnie Ulmer, both of Stony Plain.

At Spruce Grove Lutheran Church, on Tuesday, April 6, by the Rev R Puetzsch, pastor, Miss Elizabeth Schultz of Edmonton to Mr Samuel Zucht of Stony Plain. After the ceremony the happy couple drove to Edmonton, where a big reception was held in the Rotherman Hall.

On Monday, April 5, at Spruce Grove, Miss Barbara Shinbelen to Mr John Schoepf of Garden Valley.

In Edmonton, on Tuesday, April 6, Miss Mabel Tattersall (daughter of Mr and Mrs E Tattersall, Keep Hills) to Mr Arthur Bryant, of Keep Hills.

There have been rumors of several other weddings this week other than the above, but these have not received the proper verification to justify publication. The Editor had a notice already set out, and heard the bridegroom-to-be had traded his intended off for another young lady, or something else.

A Matter of Finance.

"Now, remember, Moser," an irate employer warned his much-handaged colored porter, "the very next time you come to work all handaged up like this I'm going to fire you. What do you say out of fight?" "Ah'd sho' like to, boss," was the doleful reply, "but Ah ain't got nuff money to git me a divorce."
